PROFESSIONAL SUMMARY

Full-Stack Developer (In-Progress) with a deep foundation in front-end engineering. Highly proficient in building responsive, modern layouts using React, Node.js, and Tailwind CSS. Focused on creating seamless user experiences through clean code and intuitive UI design. A dedicated continuous learner committed to staying at the forefront of modern web technologies to deliver robust, end-to-end digital solutions.

PROFESSIONAL EXPERIENCE

Weserv Systems Inc

Apr 2022 – Present

Jr. Developer

- Executed the full Software Development Life Cycle (SDLC) using the Waterfall model for a high-priority "Modernization" migration project over a 2-year period.
- Demonstrated versatility by managing data across multiple platforms, including MySQL, PostgreSQL, and SQL Server, to ensure high performance and consistent data availability.
- Maintained a streamlined development workflow utilizing Git, Azure DevOps, and ServiceNow for comprehensive repository and QA management.
- Gained proficiency in building responsive, user-centric web applications using HTML5, CSS3, and modern JavaScript (ES6).
- Leveraged React and Tailwind CSS to create modern, scalable interfaces, aligning self-directed study with project needs to deliver high-quality UI/UX.

Concentrix

May 2021 – Jan 2022

Web Hosting Advisor

- Responsible for things like server maintenance, security, domain
- Processed customer's hosting and domain purchase/renewal
- We offer trusted advice from real users on a variety of platforms including shared hosting, dedicated, VPS, WordPress etc.

EDUCATION

BS Information Technology

Jun 2015 – Aug 2021

University of the East

BS Information Technology

Jun 2013 – Aug 2014

Far Eastern University

SKILLS

- **Languages:** JavaScript, TypeScript, PHP, C++, Java
- **Frontend:** HTML, CSS, React, Tailwind CSS, Bootstrap
- **Backend:** Python, RESTful APIs
- **Databases:** MySQL
- **Tools:** Git, GitHub, AWS

PROJECTS

BeatJam Restobar

- Developed a full-stack web application for Beat Jam Aurora using React and Node.js, resulting in a 100% digitalized menu and ordering system.
- Engineered a mobile-first responsive UI with Tailwind CSS, utilizing advanced CSS techniques like flex-box, custom transitions, and dynamic transform properties for a professional look and feel.
- Optimized performance by implementing efficient React hooks (useState, useEffect, useContext) to manage complex UI states, such as automated image sliders and real-time order filtering.

- Integrated front-end routing and navigation to provide a Single Page Application (SPA) experience, reducing page load times and improving user retention.

CERTIFICATIONS

AWS Certified Cloud Practitioner | AWS | Jan 2026

Certificate code: CCP

Microsoft Technology Associate | University of the East | Nov 2019
