PROFESSIONAL SUMMARY

Front-End Developer with 2 years of experience specializing in building responsive, high-performance web applications using React and JavaScript (ES6). Highly proficient in creating seamless user experiences with Tailwind CSS and optimizing component performance using advanced React hooks. Focused on delivering clean, maintainable code and scalable UI architectures that align closely with modern product designs.

SKILLS

- **Languages:** JavaScript, PHP, C++, Java
- **Frontend:** HTML, CSS, React, Tailwind CSS, Bootstrap
- **Backend:** Python, RESTful APIs
- **Databases:** MySQL
- **Tools:** Git, GitHub, AWS, Asana

PROFESSIONAL EXPERIENCE

Weserv Systems Inc

Apr 2022 – Present

Jr. Developer

- Executed the full Software Development Life Cycle (SDLC) using the Waterfall model for a high-priority "Modernization" migration project over a 2-year period.
- Demonstrated versatility by managing data across multiple platforms, including MySQL, PostgreSQL, and SQL Server, to ensure high performance and consistent data availability.
- Maintained a streamlined development workflow utilizing Git, Azure DevOps, and ServiceNow for comprehensive repository and QA management.
- Gained proficiency in building responsive, user-centric web applications using HTML5, CSS3, and modern JavaScript (ES6).
- Leveraged React and Tailwind CSS to create modern, scalable interfaces, aligning self-directed study with project needs to deliver high-quality UI/UX.
- Engaged in cross-functional Agile development environments, utilizing Asana for sprint planning, task tracking, and seamless team collaboration.

Concentrix Web Hosting Advisor

May 2021 – Jan 2022

Web Hosting Advisor

- Managed server maintenance, security configurations, and domain/DNS management for client hosting environments.
- Troubleshoot and resolved complex hosting, VPS, and WordPress configuration issues for diverse technical infrastructure.

EDUCATION

BS Information Technology

June 2015 – August 2021

University of the East - Manila

PROJECTS

BeatJam Restobar

- Developed a front end web application for Beat Jam Aurora using React JS and Tailwind CSS, improving order processing efficiency
- Engineered a mobile-first responsive UI with Tailwind CSS, utilizing advanced CSS techniques like flex-box, custom transitions, and dynamic transform properties for a professional look and feel.
- Optimized performance by implementing efficient React hooks (useState, useEffect, useContext) to manage complex UI states, such as automated image sliders and real-time order filtering.

CERTIFICATIONS

AWS Certified Cloud Practitioner | AWS | Jan 2026

Certificate code: CCP

Microsoft Technology Associate | University of the East | Nov 2019
